10 Fully Funded Scholarships-PhD Program of Frontiers in Medicinal Chemistry and Life Sciences (MC&LS), Kaohsiung Medical University (KMU), Taiwan

Kaohsiung Medical University (KMU)-Taiwan, College of Life Sciences, Department of Medicinal and Chemistry, launched a new graduate program titled “**PhD Program of Frontiers in Medicinal Chemistry and Life Sciences (MC&LS)-2018**” to welcome International students to pursue PhD degree in KMU, Taiwan. This PhD Program of Frontiers in MC&LS at Department of Medicinal & Applied Chemistry, KMU is funded, and approved by MOE (the Ministry of Education, Taiwan), and offered by KMU, Taiwan.

KMU was the first private medical university in Taiwan, established in 1954 and has a multicultural and bilingual environment with international students from more than 50 countries. The Department of Medicinal and Applied Chemistry was established in 1990 and possess more than 21 professors in 5 research areas covering all chemistry domains. And, the department Ranked No#1 for medicinal and applied chemistry field in Taiwan since 2015 and possessing a large number of degree-seeking international students and have great research interaction with medicine (4 affiliated KMU hospitals with high-tech facilities).

This PhD Program of Frontiers in MC&LS@KMU scholarship includes full tuition fee waivers, free international students dormitory accommodation, a generous monthly stipend for living expenses, health insurance, etc. This new PhD Program@KMU is specially designed for international students to experience and explore the advanced researches in the areas of medicinal chemistry and life sciences at KMU.

This PhD program@KMU program highlights fully English teaching curriculum and advanced research facilities include (1) exploring and experiencing to various advanced research techniques/equipment at different fields of medicinal chemistry and applied chemistry research areas (2) great research interaction with medicine and learning to advanced medicinal chemistry and life science courses, (3) students will also experience various field/industries visits, attending international seminars/conferences and possible job placements opportunities after graduation at Taiwan. In addition to gaining professional knowledge and skills, this program also offers excellent opportunities to students to continue to pursue post-doctoral research at KMU and to learn Chinese, improve their language proficiency, and gain/understanding of Taiwanese cultures.
