

## **PRASANNA KUMAR GANTA / Ph.D.**

	<b>Nationality :</b> Indian
	<b>Language :</b> English, Telugu, Tamil
	<b>Autobiography :</b> I received my bachelor degree of science in general science from adhi kavi nannayya university , andrapradesh of India in 2015.Then I moved to Gayathri vidya parisheed college in vishakapatnam of andra pradesh after finished my master degree in 2017 and then I'm going for pharmaceutical industry in 2018.afterwards, I continue PhD studying in Kaohsiung medical university in Taiwan in medicinal and applied chemistry under professor H Y Chen. In my laboratory we are focusing mainly ring opening polymeration , green chemistry and click reactions and catalytic reactions and then now I'm synthesis of aluminium complexes of their application of ring opening polymerization of amides and thio-amides ligands.

### **Doctoral :**

Kaohsiung Medicinal University, Kaohsiung

Research Field : In-organic Chemistry

Advisor : H Y Chen

### **Master :**

Gayathri vidya parisheed of andrapradesh , India

Research Field : Organic Chemistry

Advisor : Dr. B. Swathi

**Publications :** No
