

MUDIGONDA SUNAINA/ Ph.D.

	Nationality: Indian
	Language: English, Telugu, Hindi
	<p>Autobiography: Stephen Hawking said “work gives you meaning and purpose and life is empty without it”.</p> <p>I am first semester student completed my second month in Taiwan successfully. And focused on learning techniques including LCMS, HPLC etc. Along with trying to mingle with everyone as here in Taiwan it is pleasant and nice atmosphere. And it helps us to develop not only physically but mentally too.</p> <p>My research in Prof. Vinoth Kumar lab was focuses on the Sample preparation techniques. I am focusing on nanomaterials and their analysis with LCMS. For now I don't have much to say but I am trying to learn my level best.</p> <p>As the development means not only the research part it involves all the extracurricular activities like dancing, singing and how to develop our writing skills etc. I am planning for take part in each and every activity in future.</p>

Doctoral:

Institute: Kaohsiung Medical University, Kaohsiung

Research field: Nanomaterials and green analytical Chemistry

Thesis supervisor / Co-advisor: Prof. Vinoth Kumar

Master:

Institute: Vellore Institute of Technology, Tamil Nadu, India

Research field: Analytical Chemistry

Thesis supervisor / Co-advisor: Dr. Annamalai Senthil Kumar
