

Revathi Gurunathan/ Ph.D

 <p>REVATHI.G</p>	Nationality: Indian
	Language: Hindi, Tamil, English
	Autobiography: I am currently pursuing Ph.D from Kaohsiung medical university, under the guidance of Dr Hans Uwe Dahms. My research work is isolation of Thermophilic Marine bacterial and metabolite screening. Is it is an ongoing research. So far I have screened for bacterial diversity and confirmed the protein from bacteria. In my lab there is freedom to work and My guide is very friendly and supportive. He always guides when I need him. Also he taught me write review and research papers. The university is a great platform for studying and laboratories are all well equipped and maintained. The instruments are accessible and one can approach very easily. As a person I am self motivated and happy person. I see things positively.

Doctoral:

Institute: Kaohsiung Medical University, Kaohsiung

Research field: Microbiology and Molecular biology

Thesis supervisor / Co-advisor: Dr. Vinoth Kumar / Dr. Hans Uwe Dahms

Master:

Institute: Madurai Kamaraj University, Madurai, India

Research field: Genomics

Thesis supervisor / Co-advisor: Dr. Manoharan

Publication: Nil
